

# COVID-19 Weekly Snapshot

This report was updated on July 28, 2020 and includes data through July 25, 2020

A weekly snapshot containing COVID-19 data specific to the City of Greenfield will be provided to our community members on a weekly basis. The purpose of each snapshot is to provide a summary of important updates and COVID-19 data. The data in each weekly snapshot is run on Sundays and be available to the public no later than Tuesday.

- **Milwaukee County Data is updated daily at 7:30AM and 2:30PM and is available at this website:**  
<https://county.milwaukee.gov/EN/Office-of-Emergency-Management>
- **A data summary for Milwaukee County is posted weekly on Thursday afternoons on the City of Greenfield COVID-19 webpage:** <https://www.ci.greenfield.wi.us/1249/Weekly-Report-Milwaukee-County>
- **Wisconsin Data is updated daily at 2PM and is available at this website:**  
<https://www.dhs.wisconsin.gov/outbreaks/index.htm>

**Confirmed Cases in Greenfield Over Time:** based on day of symptom onset, the **highest number of confirmed cases** were reported during Week 20, July 5 - July 11. A total of **90 cases** were identified during this time.

Based on date of disease reported to the health department, last week the Greenfield Health Department received 60 disease reports. When we consider symptom onset, the highest number of confirmed cases (90 cases) were identified during Week 20, July 5-11. Overall one-third of all Greenfield cases were reported in weeks 20 and 21. This means that it is likely that we will continue to see high COVID-19 activity in the coming weeks as disease investigations are completed.

## City, County, State, National and Global Data

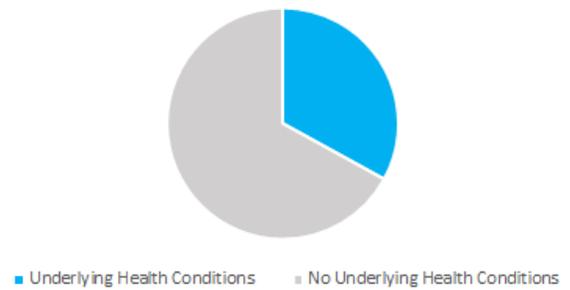

Location	Total Confirmed Cases	Total Deaths
<b>Greenfield</b>	<b>505</b>	<b>19</b>
<b>Milwaukee County</b>	<b>18,302</b>	<b>427</b>
<b>Wisconsin</b>	<b>49,417</b>	<b>893</b>
<b>United States</b>	<b>4,309,230</b>	<b>147,962</b>
<b>Global</b>	<b>16,540,137</b>	<b>655,300</b>

# Cases & Underlying Health Conditions

**Cases:** Of 4887 total COVID-19 case investigations, **505 residents were laboratory confirmed** as of Saturday, July 25, 2020.

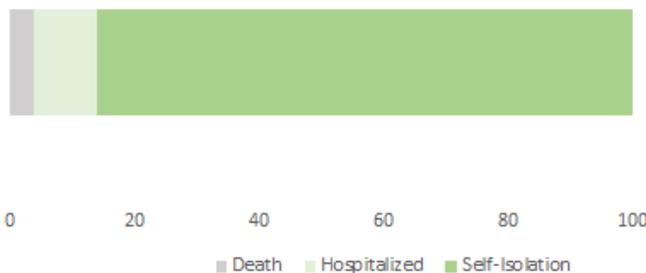

**Underlying Health Conditions: one third (33%)** of the confirmed cases had **underlying health conditions**.

Confirmed cases are those who have been positively identified through clinical testing to have been infected by COVID-19. Although COVID-19 remains a concern and the growing number of cases reflects the rapid spread of COVID-19, it is important to note the increase in confirmed cases reported in this snapshot is likely due an increase in testing availability, recommendation to test all symptomatic individuals and increased interaction in public places and gatherings. The 505 confirmed tests to-date in the City of Greenfield represent 3% of the total positive cases in Milwaukee County.

## Outcomes

**Outcomes:** the **majority** of confirmed cases **did not require hospitalization** due to COVID-19.

Of the 505 confirmed cases in the City of Greenfield, 4% of the cases resulted in death, 10% of cases required hospitalization, and 86% of the cases only required self-isolation.

## Gender

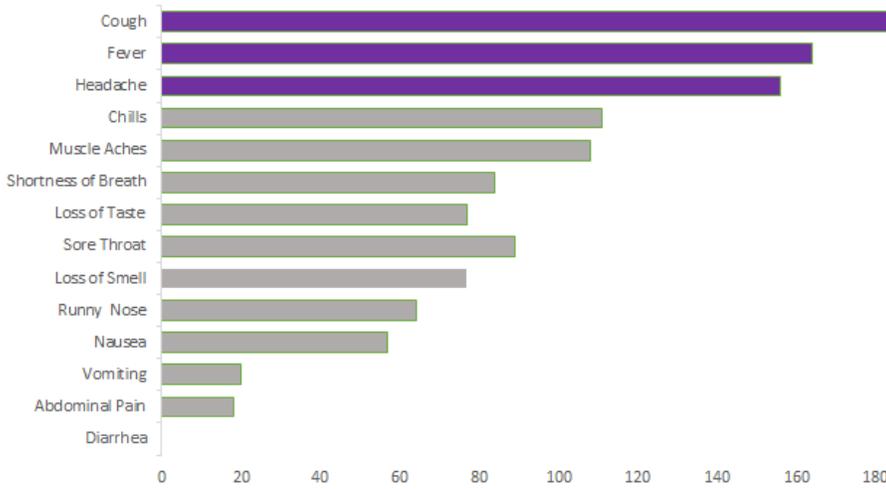

**Gender:** The majority of **confirmed cases** in Greenfield, WI are **female**.

Of the 505 confirmed cases in the City of Greenfield, females make up 57% of the cases compared to males at 43%. This data continues to stay similar across weeks.

# Symptoms

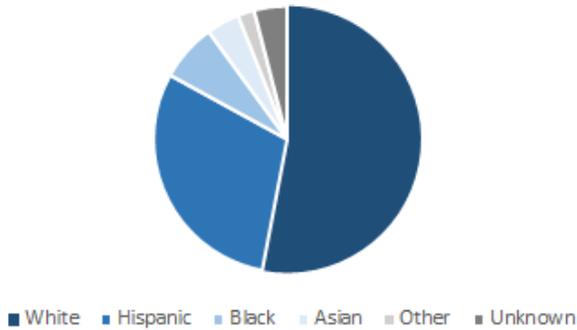

**Symptoms:** The most reported symptoms include: **Cough, Fever, and Headache**

A wide-range of symptoms were reported among confirmed cases of COVID-19. The symptoms reported among confirmed cases in the City of Greenfield are consistent with symptoms identified by the CDC. These symptoms include cough, fever and shortness of breath. 36% of confirmed cases reported a cough, 32% of confirmed cases reported a fever, 31% of cases reported a headache. Furthermore, an important note is that 30% of confirmed cases reported experiencing no symptoms during their isolation period.

## Demographic Data

**Demographic Data:** More than half of the confirmed cases in the City of Greenfield identify by race as **White**.

According to the most recent Census Data, the majority of residents of the City of Greenfield identify as white, with Hispanic being the second largest reported category. The COVID-19 demographic data for confirmed cases is consistent with what we would expect for our community, with the majority of confirmed cases identifying as white and the second highest number of reported cases identifying as hispanic. Out of 505 cases, a total of 53% of cases identify as white, 30% identify as Hispanic, 7% identify as Black, 4% identify as Asian, 4% race/ethnicity is unknown and % identify as other.

## Age

According to the CDC, older adults and people who have severe underlying medical conditions like heart or lung disease or diabetes seem to be at higher risk for developing more serious complications from COVID-19 illness.

Confirmed cases in Greenfield have been consistent with this statement, however, we are seeing an increase of cases among individuals under the age of 60 years old. More than half of the confirmed cases are younger than 60 years of age. A total of 11% of confirmed cases were at least 80 years old, 19% were between the ages of 60-79 years, 26% were between the ages of 40-59 years, 37% were between the ages of 18-39 years and 7% were between the ages of 0-17 years.

**Age:** More than two thirds (70%) of the confirmed cases are younger than 60 years of age.
