**PLUMBING INSTALLATIONS BY HOMEOWNER**

In accordance with State stats 145.06, a plumbing license is required to install plumbing in Wisconsin except when the plumbing work is performed by a property owner in a one-family dwelling that he or she occupies. Plumbing work done by owners is limited to the inside of a single-family dwelling. This dwelling must be the owner's primary residence<sup>1</sup>, not a cabin, summer home, rental property business, etc.

The plumbing installation shall be performed by the owner-occupant only. No one else shall be permitted to cause such installation unless properly licensed by the State of Wisconsin.

I understand that I am subject to all applicable codes, statutes and ordinances and with the conditions of this permit; understand that the issuance of the permit creates no legal liability, express or implied, on the State, municipality or inspection agency; and certify that all the above information is accurate. I expressly grant the plumbing inspector, or the inspector's authorized agent, permission to enter the premises for which this permit is sought at all reasonable hours and for any proper purpose to inspect the work which is being done. In granting this approval, the City of Greenfield reserves the right to require changes or additions, should conditions arise making them necessary for code compliance. As per State stats 101.12(2), nothing in this review shall relieve the designer of the responsibility for designing a safe building, structure, or component. The City of Greenfield does not take responsibility for the design or construction of the reviewed items.
