For Immediate Release

HEALTH DEPARTMENT ANNOUNCES PLANS FOR 5-11 YEAR-OLD COVID-19 VACCINATION CLINICS

Area Schools Partner to Host Clinics throughout the Community

The Greenfield Health Department will be hosting Pfizer COVID-19 vaccination clinics for children 5-11 years beginning this week. The Health Department will be working collaboratively with the Hales Corners Health Department and area schools in this vaccination effort.

“Research indicates that vaccines reduce the risk of severe complications related to COVID-19,” said Darren Rausch, Health Officer/Director. “For school children, getting vaccinated keeps them protected and reduces their likelihood to spread disease to classmates, friends, and family members (especially grandparents and others at serious risk of COVID-19 complications).”

The clinics identified below will use Pfizer vaccine which has been approved for use in kids 5-11 years of age. These clinics will only be available for children 5-11 years. Parents will need to be present to sign consent to vaccinate documentation. Additional details, including the online registration link, are available in the table below.
